The INFOhio Impact

Transforming Instruction · Impacting Learning

Keep Students Reading with INFOhio

Seneca County

"One more story!" chant the students at Seneca East Elementary School. School librarian Andrea Schimpf, and her teachers, are happy to comply. As students eat their snack, they are in for a sweet treat with eBooks from Scholastic BookFlix. Teachers use fiction and nonfiction eBook pairs to introduce the theme for the week, and with social distancing in place in the library, Andrea can share one more story with her students during library time.

Second grade teachers shout 'hooray' for eBooks from Highlights Library. INFOhio is happy to partner with Highlights Library to offer easy access to their library of eBooks. With eBooks tailored to each student's reading level and engaging quizzes, students chart their progress. After meeting reading progress goals, students unlock their reward—a hidden picture puzzle! As one second grade teacher shared, "I loved seeing students enjoy reading, and they were motivated to read on a daily basis!"

What Educators Say About INFOhio

"Without INFOhio, my students would have struggled to find quality, trustworthy, information on their own via search engines.

- Mary Ann Durkalski
Library-Media Specialist,
Shaker Heights City Schools"

"Developing our INFOhio PD course was a powerful opportunity to support teachers at the right time with the right tools to support instruction.

- Jessica Klinker, Head Librarian,
South-Western City
School District"

"As college courses move online, and workplaces become more digital, INFOhio prepares students to use online resources as part of their future."

- Amy Wise, Head Librarian,
South-Western City
School District

"State funding for INFOhio's premium resources means that all students in Ohio have equal opportunity for rigorous, academic research and easy access to high-quality research tools.
- Emily Colpi,
Library Media Specialist,
Mariemont City Schools"

Real Classrooms. Real Stories.

Inquiring Minds Want to Know

Cuyahoga County

Students at Lomond Elementary haven't stopped diving into inquiry. Last spring, 88 fourth grade students participated in the Exhibition, a long-term research project, and explored 26 different topics. To tackle research on these tough topics, students used digital content from resources through INFOhio, including World Book Student, Gale in Context: Elementary, and Explora PreK-5.
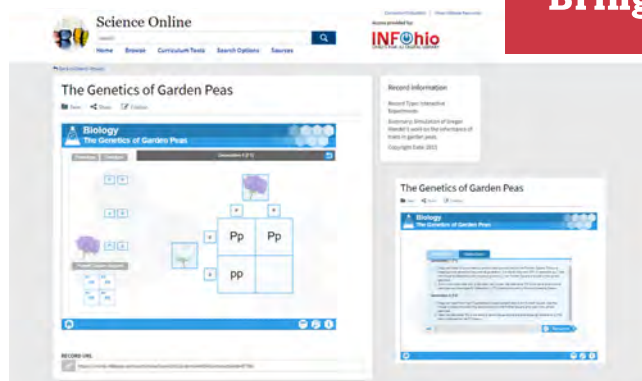

Making the Most of Remote Mondays

Guernsey County

Teacher Wendy Cochran ensures her students at Cambridge Intermediate have plenty of books to read at school, at home, and on the go! In the classroom, Wendy uses eBooks pairs from BookFlix to teach students about the day in the life of a spider. Wendy teaches students how to access the eBooks so that students can log in from home to share their favorite titles with their families.

Bringing INFOhio Resources & PD to Teachers

Franklin County

Head Librarians at South-Western City School District Jessica Klinker and Amy Wise developed an asynchronous course to help teachers deliver personalized instruction in any learning environment. Participants in A Teacher's Playground: INFOhio's Learning Tools selected INFOhio resources to supplement their classroom curriculum. Teachers were stunned by the amount of high-quality resources they could access for free!
