

856 Tag - Podcast

These directions have been modified for adding a podcast link to a catalog record. Additional information is available on the INFOhio site at <http://www.infohio.org/Documents/CRCTF/GuidelinesEnhancingMARC.doc>

INTRODUCTION

Use for adding Internet sites to catalog. This includes podcasts, author sites and other information of interest that is connected to the title.

Tag may be repeated.

- because more than Internet site might be identified as pertinent to a title.

Note: Records for Web sites may not be exported to the INFOhio Union Catalog due to the inability of INFOhio to validate sites should the content change. *NOTE: 856 tags in records for traditional resources may not be retained in the bibliographic record when it is imported to the INFOhio Union Catalog.*

- This field may be used in a bibliographic record for a resource when that resource or a subset of it is available electronically.
- It may also be used to locate and access an electronic version of a non-electronic resource described in the bibliographic record or a related electronic resource.
- Field 856 is repeated when the location data elements vary (the URL in subfield \$u or subfields \$a, \$b, \$d when used). It is also repeated when more than one access method is used, different portions of the item are available electronically, mirror sites are recorded, different formats/resolutions with different URLs are indicated, and related items are recorded.

1st indicator – Access method

- ␣ No information provided
- 4 http
- 7 Method specified in subfield \$2

2nd indicator -- Relationship

- ␣ No information provided
- 0 Resource
- 1 Version of resource
- 2 Related resource
- 8 No display constant generated

\$a Host name (R)

\$u Uniform Resource Locator (NR)

\$y Link text (R)

Text that will **display** in place of the URL and will link to the site entered in \$u.

\$z Public note (R)

Optional. Use if needed. See example.

\$2 Access method (NR)

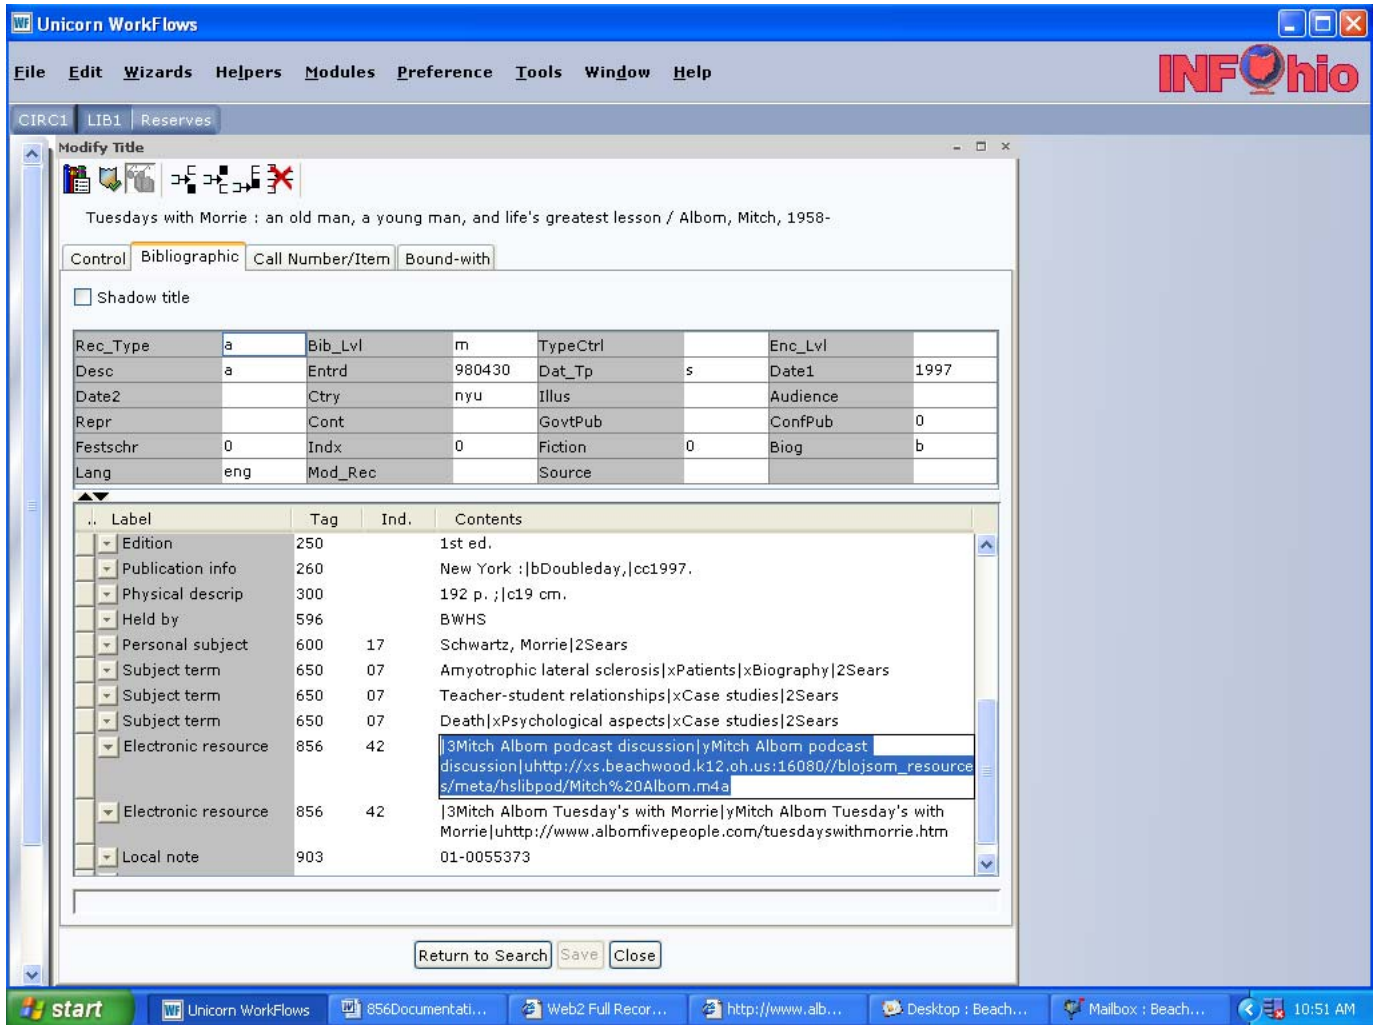

The access method when the first indicator position contains value 7.

\$3 Materials specified (NR)

Specified the part of the bibliographic item to which the field applies.

EXAMPLE:

856 42 |3Mitch Albom podcast discussion|yMitch Albom podcast discussion|uhttp://xs.beachwood.k12.oh.us:16080//blojsom_resources/meta/hslibpod/Mitch%20Albom.m4a

This is what the catalog looks like:

The screenshot shows a web browser window with a library catalog interface. At the top, there is a navigation bar with links for 'Quick Search', 'Advanced Search', 'Other Resources', 'My Account', and 'Suggestion Box'. Below this is a row of navigation icons: 'GO BACK', 'NEW SEARCH', 'PREVIOUS', 'NEXT', 'CHANGE DISPLAY', and 'KEEP'. The main content area displays 'Record 1 of 1 records that matched your search.' The record details for 'Tuesdays with Morrie' are shown, including a book cover image, a brief description, physical description, and a holdings table. The holdings table lists the book's location at Beachwood High School - Biography Collection, call number B SCHWARTZ, and status Available. The interface also includes a sidebar with links for 'Keep for Emailing/Printing', 'Mitch Albom podcast discussion', and 'Search for' options like 'INFOhio Electronic Resources' and 'Other Libraries'. The INFOhio logo is visible at the bottom center of the page.
