

Britannica Learning Zone

A PK-2 Interactive Learning Environment

This teacher's guide provides instructions on how to use the Teacher Tools and ideas for using the program in your reading, writing, science, social studies, and math curriculum. The Teacher Tools can be used by you to determine what *Learning Zone* content your students can access. For instance, you can turn on or off any of the Explore video clips, Play activities, any of the Draw activities, and even any of the letter sections of the Read section. The sample lesson plans show you how you can use the Teacher Tools to provide a specific instructional path for your students in one of the main subject areas that you teach.

There are five sample lessons that show you how easy it is to use the Teacher Tools to create a customized learning experience for your students.

SCIENCE LESSON

Focuses on the similarities and differences in the appearance and behavior of various animals. <http://eb.com/learningzone/teacherguides/sciencelesson.pdf>

SOCIAL STUDIES LESSON

Helps students understand that places can be defined in terms of their human and physical characteristics. <http://eb.com/learningzone/teacherguides/socialstudieslesson.pdf>

MATH LESSON

Helps students understand that numbers represent quantities of objects. <http://eb.com/learningzone/teacherguides/math.pdf>

READING LESSON

Helps students connect visuals to beginning sounds and words. <http://eb.com/learningzone/teacherguides/reading.pdf>

WRITING LESSON

Helps students become better at drawing pictures and at using words to describe specific actions. <http://eb.com/learningzone/teacherguides/writing.pdf>
