Britannica Online School Edition

- Put a check in the boxes for **Britannica Elementary Encyclopedia** and **Video & Media** then type in something you'd like to learn more about. If you type in **dog** you'll see the article about dogs and you can also watch short videos about dog training, working dogs, and more!
- Check **Learning Materials** in the right frame to find lots of fun (and educational) games and activities. Select your grade level, favorite subject and choose a game. You'll have fun while you're learning!

SIRS Discoverer Deluxe

- Click on **Activities** in the lower right corner.
 - Select **Art Projects** and create something fun alone or with friends.
 - Check **Food Projects & Recipes** to fix something yummy for your family.
 - Learn **Jokes & Riddles** or **Magic & Tricks** to entertain your buddies.
 - Click on **Plays to Perform** and find a play to rehearse and present with your friends, brothers & sisters, even pesky cousins!
- Check each week for **Discoverer's Top Pick**, an interesting story with pictures. The colored boxes will help you choose the right level for you. Green boxes are the easiest. If the story is too hard, ask a parent or older brother or sister to help you read it.

EBSCOhost Periodical Index – Click on **Primary Search** (grades K-6.)

- Click **Primary Search** for articles from your favorite magazines like Ranger Rick, Cricket, and Highlights for Children.
- Select **Encyclopedia of Animals** for articles and pictures of animals from all over the world.
- Choose **Pictures**...you know what you'll find there!

OH! Kids – Click on the green **Other Resources** bar below the button that says **OH! Teach**. Scroll down alphabetically and choose **OH! Kids**.

- Select your appropriate age-level: **WebTots** (under 6) or **WebKids** (ages 7-9)
- You'll find lots of fun activities and links to your favorite Web sites.

For even **MORE** fun, join the **Summer Reading Club** at your public library!
