

THE INFORMATION NETWORK FOR OHIO SCHOOLS

INFOhio MARC Record Standards Computer Materials

January 2001

The following INFOhio MARC record standards represent the desired level of MARC cataloging for Ohio schools. Their intent is to insure not only quality records but also the greatest level of access to school and instructional materials by learners and educators. These standards are intended for any vendor or cataloger providing MARC records to Ohio schools or any regional instructional materials center in Ohio. While it is understood that not all data required by these standards might be available, the required data are to be included in the record to the extent available and should never be removed from a record. For greater detail on the content of the fields below consult MARC21
<<http://lcweb.loc.gov/marc/bibliographic>>

A- MANDATORY IF APPLICABLE

A data element that must be present in a bibliographic record if it is appropriate for the item being described and if the bibliographic information is available.

M- MANDATORY
