

Summer Fun Calendar 2004

OK, so we know that school is just out and you can't wait to ride your bike, go swimming, take a vacation or just hang out with your friends. But remember last summer, there was that day when you said "I'm bored!"? When that happens this time, find this paper and have some fun with your computer. Don't have a computer? Your public library does! Visit them and ask what the rules are. Some libraries ask your parents to sign a form.

Here's where to start: <http://www.infohio.org>

Click on the Student/Parent button and find the links for **Summer Fun with INFOhio!**

Select a date and start having fun with the INFOhio electronic resources. You'll need a username and password...here they are:
