## LSTA Digital Titles for All Ohio K-12 Schools

**Area Media Centers** acquire 130 digital titles for statewide use

- Seasonal titles without enough copies to fill everyone's requests.
- High-demand videos that everyone wants to use, often at the same time.
- Materials that align to Ohio Academic Content Standards.

Funds received by Ohio's 24 Area Media Centers to acquire 130 videos in digital format will help solve some of these situations for many Ohio educators. The titles are from 16 well-respected video producers, such as AIT, Disney and Weston Woods, and apply to a wide range of subjects and grade levels.

The digital collection will be available to all Ohio K-12 schools in October, at no cost to Ohio educators or students. The titles have been licensed to make use convenient, too. The bibliographic records for the videos have been added to INFOhio's K-12 Curriculum Resource Catalog, so they can be searched by several fields such as author, title, subject heading and keyword.

**No cost to K-12 Ohio schools ...**

Within each record is a hyperlink to the full product, which can be streamed (watched live) over a high-speed Internet connection or temporarily downloaded to a local computer or you can have a CD-ROM version shipped from your AMC.

[www.infohio.org](http://www.infohio.org)

In addition to the links to the videos within the CRC, many records include links to materials that support the materials. For example, a link may provide an online version of the teacher's guide that accompanies the video. Other links may lead to reproducible masters for student assignments and related Web sites. By using the Curriculum Resource Catalog as the central access point for these resources, the related links are accessible and reliable.

Area Media Center staff studied their usage reports and worked at a statewide level to negotiate with vendors to assure the collection represents those titles in high demand. Special attention was given to acquire materials that align to Ohio's Academic Content Standards. By pooling their efforts and state acquisition budgets, the AMCs were able to guarantee at least five year rights to all videos. Some companies agreed to seven-year rights, and most to lifetime rights.

The cost of this initial collection was made possible through a grant from the Library Services and Technology Act (LSTA).

AMCs will cooperate on the purchase of additional titles yet this school year, so watch for the number of digital titles to grow.

The AMCs and INFOhio would like to thank their partner OhioLINK that will host the titles on their server for this project.

Use the SUGGESTIONS button near the top of almost every INFOhio Web page to offer ideas for additional titles.

A new home page button takes you to INFOhio's media booking agencies.
