4 Think of someone who might be interested in what you learned. It can be one person or a whole group.

Name:

Now, write a question this person or group might want answered about this topic.

Question:

Organize your main ideas before you get started with the presentation tool you chose. Use these boxes to record your ideas and then number them in the best order:

Now, list the URL where your project can be found so others can learn more.

URL:

Last but not least: Reflect!

What was easiest about your project? Why?

What was hardest? Why?

5 Now, choose how you will present and publish what you've learned to the person or group you identified in Step 4.

Visit <http://go.infohio.org/achieve/presenting> or <http://go.infohio.org/achieve/publishing> for presentation ideas. List three you think will work and then circle the one you like best.
