

Installing / Accessing MobileCirc:

Before configuring MobileCirc to fit your library's needs, you must activate MobileCirc in a browser, or download the app and activate your instance of MobileCirc.

To install MobileCirc on a laptop, Chromebook, computer:

1. In the **browser** of your choice, use <https://na3.bc.sirsiidynix.net/mobilecirc>
NOTE: (This url **MUST** be open through any firewalls – **see details**, page 2)

To install MobileCirc on your mobile device:

1. Locate the MobileCirc app to download. Depending on your device, do one of the following:
 - a. On an Apple device, go to the Apple app store and search for MobileCirc or go directly to the app download page here:
<https://itunes.apple.com/us/app/mobilecirc/id743010884?mt=8&uo=4>
 - b. On an Android device, go to the Play store and search for "MobileCirc."
2. Download and install the MobileCirc app.

After the MobileCirc application is installed, open it by choosing Open or by tapping the icon in your applications list.

1. Enter the Activation URL and Activation Key you were given and tap **Activate**. If you do not have the activation key, contact your ITC provider.
 - a. You can use the device camera to scan the QR code (*using a QR reader app*), or copy/paste the activation key if using the browser version
2. Select the correct library from the **Institution drop down list**.
3. On the **Sign In** page, enter the user name and password that you use to log in to your library when you need to perform these functions.
4. Tap **Sign In**.
5. Select the appropriate options from the **Setup** menu then tap **Apply**.
 - a. For more information on the Setup menu, see online Handbook / BLUEcloud/ MobileCirc / **MCSetup** guide.
