

Spine Labels

Purpose:

Create spine labels just for items you cataloged today.

Location:

INFOhio tab > LBL: Item Labels

Setup options:

- a. Basic tab – change report name and title (ex. Spine Labels for Today)
- b. Title Selection tab – Modified by – use gadget to locate your user profile (ex. ABHS_LIB1)
This will prevent spine labels running for items cataloged by other people or from vendor loads.
- c. Item Selection tab
 - Select your library
 - Click on the Date created gadget (See 15.3 Tip Sheet if you need help using the Date Gadget) **DO NOT ENTER A SPECIFIC DATE!**
 - Click the time period gadget. 
 - Start date - Leave at default, date report will be run.
 - End date – Leave at default, date report will be run.
 - Click OK.
- d. Label Options tab
 - Bullet Spine labels.
 - Edit size of font if desired. You can also edit the font when viewing the report in Finished Reports.

Save Report as a Template!
