Young students will greatly appreciate the historic and guiding principles outlined in one of America's most significant documents, The Constitution of the United States. While symbolizing the ideals of American liberty and freedom, the United States Constitution also articulates the laws upon which America was founded. These laws provide the standards by which the United States is governed and personal freedoms for all citizens are respected and protected.

The INFOhio Digital Video Collection is available to all Ohio K-12 schools at no cost to districts, educators, or students. This collection was made possible, in part through a Library Services and Technology Act grant awarded to the AMC's by the State Library of Ohio. Funding to maintain and increase the DVC is provided by the INFOhio project. The content does not necessarily reflect the position or policy of the granting agencies.
